

International procurement facilitator
Specialist Food Ingredients

 **Redyron**
— Global Sourcing & Trading —

Redyron is your International Brokerage and Trading Company for Specialist Food Ingredients

Christophe Guyondet, an expert at your service

Saving you time in prospecting, meeting and evaluating suppliers.

An end-to-end service

Tracking your transactions and ensuring their successful execution, from negotiation to delivery by sea, land or air, depending on how quickly you need your goods.

Controlling and confirming quality and compliance

To ensure that the food ingredients conform to your requirements and comply with international norms and standards, a quality control service will be provided as part of the production batch validation and release process.

Working and investing on your behalf

Selecting the quotation that best meets your specification.

- No time is wasted on endless research via various mediums
- A real financial saving: no travel costs

In founding Redyron, my aim was to provide you with a streamlined service for purchasing specialist food ingredients

7 years of researching, understanding and developing proficiency in products and the market

23 suppliers met, evaluated and accredited

53 countries visited across 4 continents: Africa, the Americas, Asia and Europe

more than **40 companies** met to develop B2B relationships

My market analysis and interaction spans the globe
I provide expert advice in tune with market trends
I negotiate the terms of the contract on your behalf
I arrange end-to-end tracking and successful completion of your transactions

**As a Redyron client,
you can be sure that
you are purchasing
food ingredients
that satisfy your
requirements**

I take pride in systematically checking that all shipping documents (commercial invoice, bill of lading, packing list, certificate of analysis, etc.) meet quality requirements.

Requesting, following up and supplying shipping documents in a timely manner is a major factor in ensuring efficient customs clearance procedures.

Sweeteners

Some examples of the products available

A

Agar-agar (E406)
Alpha-Tocopherol (E307)
Aspartame (E951)...

C

Calcium carbonate (E170)
Calcium phosphate (E341)
Carrageenan (E407)...

Citric acid (E330)
Copper gluconate
Copper sulfate...

D

Dicalcium phosphate - DCP (E341ii)
Diphosphates (E450)...

E

Electrolytic iron...

G

Gelatin (E428)
Glycine (E640)...

I

Iron fumarate
Iron EDTA
Iron gluconate (E579)...

M

Magnesium carbonate (E504)
Magnesium phosphate (E343)
Magnesium sulfate (E518)
Monosodium glutamate (E621)
Monocalcium phosphate - MCP (E341i)...

P

Phosphoric acid (E338)
Potassium chloride - KCl (E508)
Potassium ferrocyanide (E536)
Potassium iodate - KIO3
Potassium iodide - KI
Potassium phosphate (E340)...

S

Silicium dioxide (E551)
Sodium ascorbate (E301)
Sodium phosphate (E339)
Sucralose (E955)...

T

Tartric acid (E334)
Taurine
Tocopherol-rich extract (E306)
Tricalcium phosphate - TCP (E341iii)...

V

Vitamin A palmitate 250 CWS
Vitamin A palmitate 1.0 / 1.7 Mio UI/G
Vitamin B1, B2, B3, B6, B12
Vitamin B9 - Folic acid
Vitamin C - Ascorbic acid (E300)
Vitamin D2, D3
Vitamin E acetate
Vitamin & mineral premix...
